

# Digital Religion

## Call for papers

The Donner institute will arrange a Symposium 13-15 June 2012 in Åbo / Turku, Finland

The theme we have chosen for the Donner Institute 23rd Symposium is Digital Religion.

The conference "Digital Religion" aims to explore the complex relationship between religion and digital technologies of communication.

Digital religion encompasses a myriad of connections between religion and digital technologies of communication and the goal of the conference is to approach the subject from multiple perspectives.
